Choosing the right electronic health record (EHR) system is critical for the efficiency and success of any healthcare practice. The right EHR can streamline workflows, enhance patient care, ensure compliance with regulations, and ultimately save time and money. However, understanding the cost structures and features of various EHR systems can be daunting. This guide provides a detailed breakdown of pricing and features for the top five EHR vendors: CureMD, AdvancedMD, NextGen, athenahealth, and eClinicalWorks, helping you make an informed decision for your practice.

## CureMD

CureMD offers a comprehensive EHR solution known for its adaptability and user-friendly interface. CureMD's pricing starts at approximately \$295 per provider per month. CureMD is especially praised for its robust support and training, ensuring smooth implementation and usage.

### Key Features:

- Practice management
- Electronic prescriptions
- Patient portal
- Customizable reporting tools
- Robust support and training

AdvancedMD is designed to cater to the needs of both small and large practices, offering flexible pricing plans. The basic plan starts at \$429 per provider per month. Additional modules like telemedicine and electronic prescription are available at extra costs.

## Key Features:

- Advanced scheduling tools
- Patient engagement solutions
- Revenue cycle management
- Extensive reporting capabilities
- Optional telemedicine and e-prescriptions

NextGen provides an integrated EHR and practice management solution aimed at improving clinical outcomes and operational efficiencies. Pricing for NextGen starts at around \$299 per provider per month.

## Key Features:

- Specialty-specific templates
- Patient portal
- Integrated billing
- Robust analytics tools

Athenahealth is known for its cloud-based EHR system that emphasizes ease of use and comprehensive support. The pricing for athenahealth starts at \$140 per provider per month, plus a percentage of collections (4% to 7%). Athenahealth provides a strong network of support to help practices optimize their use of the system.

## Key Features:

- Patient portal
- Appointment scheduling
- Billing management
- Detailed reporting
- Percentage-based pricing on collections

eClinicalWorks offers a versatile EHR solution with a starting price of \$449 per provider per month. eClinicalWorks is known for its strong interoperability and ability to integrate with other systems, making it a popular choice for practices looking to expand their capabilities.

## Key Features:

- Telehealth
- Patient engagement
- Revenue cycle management
- Population health management
- Strong interoperability

## EHR Pricing Comparison Chart
